

Denise Diehl,

I oppose House Bills 566,567 and 568. They are detrimental to all Vermonters and turns law abiding citizens into felons if they bring their weapons to Burlington. Are we going to have a mish-mash of gun laws in this state? Please vote against these Bills. Vermont's gun laws are working just fine as the state has one of the lowest violent crime rates in the country. These bills are unconstitutional.

**“Per the Vermont Federation of Sportsmen:  
Understand that this legislation is not about just guns in  
Burlington.**

**It is about Vermont municipalities killing our Vermont  
Sportsmen's Bill of Rights by exempting it into being  
meaningless.**

**It is about creating a forum for gun control forums in  
municipalities all over Vermont.**

**It is about being able to ban/regulate all that is protected from  
multiple municipal PC challenges to outdoors sports/shooting  
activities by creating a state-wide patchwork of restrictive  
ordinances.**

**Our Vermont Sportsmen's Bill of Rights (24 VSA Section 2295)  
went into effect in 1988 and has served our state well.”**

Thank You,
